DataCom Applications**

**Indoor and Outdoor
Applications**

Exceptional Lubrication for Premium Performance

NSI's Slider Clear Gel wire pulling lubricant is the premium choice to ensure maximum performance for faster, easier pulls. Safe to use on all types of wire and cable, Slider is well-suited for electrical, telecommunications and data applications.

Slider's non-drip formula provides superior cling for ease of application and installation. Non-toxic, non-staining and non-flame propagating.

Product Features

- Superior friction reduction and lower tension on cable pulls
- Clings evenly to provide superior friction reduction and ease of installation
- Compatible with all types of wire and cables, regardless of jacket or insulation material (rubber, neoprene, nylon, PVC, PE)
- Clear, colorless, water-based formula, non-staining for easy cleanup
- No wax, grease or silicone; non-aromatic
- Safe, non-toxic and eco-friendly
- Non-flammable and non-combustible
- Temperature stable for indoor and outdoor use

Product Specifications

- One Quart - 12 Carton Quantity
- One Gallon - 4 Carton Quantity
- Five Gallons - 1 Carton Quantity

PROPERTY	VALUE
Appearance	Clear, colorless gel
Aromatic content	None, no wax, grease or silicone
Percent solids	1.4 - 2.5%
pH	6.0 -8.0
Temperature range	30°F - 120°F
Temperature stable	Yes
Acidity	None
VOC content	20 g/l
Viscosity	170,000 cps @40 RPM
Flammability	No flash point
