THREADED ROD

Strength You Can Hang Your Reputation On

When it comes to suspending electrical, mechanical, and structural components, contractors rely on threaded rod for secure, dependable support. **Metallics** Threaded Rod delivers the strength, consistency, and finish options installers need — backed by the service and reliability distributors expect from NSI.

Available in Electrogalvanized (EG) and Hot Dipped Galvanized (HDG) Zinc, Metallics threaded rod supports a wide range of indoor and outdoor applications across commercial, residential, and industrial projects.

Threaded rod (also known as all-thread rod) is a continuous threaded fastener used for hanging, mounting, and securing fixtures, conduit, strut, pipe, duct, cable tray, and other structural components.

Ideal Applications

- ▶ Fixture hanging systems
- ▶ Strut and trapeze assemblies
- ▶ HVAC and duct support
- ▶ Electrical conduit runs
- ▶ Pipe supports
- ▶ Structural bracing
- ▶ Commercial & industrial builds

Material Options

Electrogalvanized Zinc (EG)

- ▶ Corrosion-resistant finish for interior applications
- ▶ Clean appearance for exposed installs
- ▶ Ideal for commercial electrical and mechanical systems

Hot Dipped Galvanized Zinc (HDG)

- ▶ Enhanced corrosion resistance
- ▶ Suitable for outdoor and harsh environments
- ▶ Long-term durability in demanding applications

Features & Benefits

- ▶ **Consistent Threading**
Smooth nut engagement for faster installs and fewer jobsite delays.
- ▶ **Reliable Strength**
Designed to support demanding fixture and structural hanging applications.
- ▶ **Multiple Diameters & Lengths** Stock the sizes contractors use most — including 1/4"-20, 3/8"-16, and 1/2"-13 in 6', 10', and 12' lengths
- ▶ **Sold in Bundle Quantities**
Shipped and stocked in contractor-friendly bundle quantities for easier handling and efficient inventory management
- ▶ **Ready to Ship**
Fast access to high-demand threaded rod helps distributors meet contractor needs without delay

THREADED ROD

PART #	DESCRIPTION	BUNDLE QTY	BUNDLES/PALLET
TRS6/6B	Thread Rod, Steel, EG , 1/4-20 X 6'	50	50 (2,500 PCS)
TRS610	Thread Rod, Steel, EG , 1/4-20 X 10'	50	25 (1,250 PCS)
TRS7/6	Thread Rod, Steel, EG , 5/16-18 X 6'	35	50 (1,750 PCS)
TRS8/6B	Thread Rod, Steel, EG , 3/8-16 X 6'	25	50 (1,250 PCS)
TRS810	Thread Rod, Steel, EG , 3/8-16 X 10'	25	25 (625 PCS)
TRS812	Thread Rod, Steel, EG , 3/8-16 X 12'	25	25 (625 PCS)
TRS9/6B	Thread Rod, Steel, EG , 1/2-13 X 6'	12	50 (600 PCS)
TRS910	Thread Rod, Steel, EG , 1/2-13 X 10'	12	25 (300 PCS)
TRS912	Thread Rod, Steel, EG , 1/2-13 X 12'	12	12 (144 PCS)
TRS106	Thread Rod, Steel, EG , 5/8-11 X 6'	8	50 (400 PCS)
TRS1010	Thread Rod, Steel, EG , 5/8-11 X 10'	8	25 (200 PCS)
TRS11-6	Thread Rod, Steel, EG , 3/4-10 X 6'	5	50 (250 PCS)
TRS1310	Thread Rod, Steel, EG , 1-8 X 10'	2	25 (50 PCS)
TRS8/6HDC	Thread Rod, Steel, HDC , 3/8-16 X 6'	25	50 (1,250 PCS)
TRS9/6HDC	Thread Rod, Steel, HDC , 1/2-13 X 6'	12	50 (600 PCS)
TRS910G	Thread Rod, Steel, HDC , 1/2-13 X 10'	12	25 (300 PCS)

THE METALLICS DIFFERENCE

Since 1959, **Metallics®** has delivered dependable fastening and hanging solutions trusted by electrical professionals nationwide. With deep inventory, broad cross-reference capability, and contractor-focused packaging, **Metallics®** helps distributors stock smarter and serve faster.

METALLICS is supported by **NSI's 360 Advantage™** — a full circle of support designed to protect your margins and simplify your operations.
