

POWER GRIP®

CABLE TIES

HOOK & LOOP CABLE TIES

Protect Your Fiber. Simplify Your Install. Provide What Data Centers Demand.

When you're working in high-density racks and tray systems, protecting fiber optic cable is critical. PowerGRIP® Hook & Loop Cable Ties provide secure, reusable bundling without over-tightening or cable damage.

BUILT FOR DATA CENTER INSTALLS

- ▶ **Prevents Cable Compression**
Soft material protects delicate fiber jackets.
- ▶ **Reusable for Moves, Adds & Changes**
Easily reopen and adjust bundles — no cutting required.
- ▶ **Faster Installs**
Tool-free application saves time in racks and ladder tray.
- ▶ **Cut to Any Length**
Custom-fit every bundle for a clean finish.
- ▶ **Ideal For:**
Server Racks, Ladder Tray, Basket Tray, Underfloor Cable Routing

WHY CONTRACTORS PREFER HOOK & LOOP IN DATA CENTERS

- ▶ **Traditional Nylon Ties:**
Can over-tighten
Require cutting for changes
Risk fiber damage
- ▶ **PowerGRIP Hook & Loop**
Adjustable
Reusable
Service-friendly
Professional appearance
