

POWER GRIP®

CABLE TIES

HOOK & LOOP CABLE TIES

The Data Center Cable Management Solution Your Customers Expect

Data centers demand flexible, damage-free cable management — especially for fiber optic installations. PowerGRP® Hook & Loop Cable Ties provide reusable, adjustable bundling solutions designed for high-density rack and tray systems. Now backed by NSI's 360 Advantage™ and ONE PLEDGE 1.1.1 supply chain efficiency.

WHY YOUR DATA CENTER CUSTOMERS SPECIFY HOOK & LOOP

- ▶ **Prevents Fiber Damage**
Soft, flexible design eliminates over-tightening risk common with nylon cable ties.
- ▶ **Reusable & Adjustable**
Ideal for environments requiring frequent moves, adds, and changes (MACs).
- ▶ **Professional Rack Appearance**
Clean, organized cable bundles for high-visibility installations.
- ▶ **Cut-to-Length Flexibility**
Roll format allows installers to customize every bundle.

WHY STOCK POWERGRP® FROM NSI

360 Advantage™ = Competitive Edge

Product

- Professional-grade cable management solutions
- Part of NSI's complete Electrical & Low-Voltage portfolio

Profitability

- Stock-and-flow essentials for recurring project demand
- Add-on sales opportunity to every data center order
